Copper Mountain is an excellent choice for intermediate skiers and snowboarders. The terrain is segregated into beginner, intermediate and expert areas, each located on different parts of the mountain. The happy result is that beginners aren't intimidated by fast-moving experts, advanced skiers aren't held up by slower beginners and intermediates are left to frolic among themselves on over 2,400 skiable acres.

This Trip Includes: Pre-party, RT airfare Detroit to Denver, 5 nights lodging, 4-day ski pass, post-party and some of the sunniest, blue-sky skiing Colorado has to offer!

Lodging: Four-person condominiums conveniently located at Copper Mountain Village. The village offers over 40 shops and restaurants, all within walking distance from the base.
